

Dixit Luvani

Python and Django Developer Intern | MCA Student

Ahmedabad, Gujarat | +91 8160951075 | luvanidixit101@gmail.com

GitHub: <https://github.com/luvanidixit101>

PROFESSIONAL SUMMARY

Second-year Master of Computer Applications student building web applications with Python, Django, PostgreSQL, REST APIs, and React. Project work includes fleet management, student attendance, and a tool-sharing platform. Seeking a Python/Django backend or full-stack development internship.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Java, SQL, PHP

Frameworks: Django, Django REST Framework, React, Spring Boot

Databases: PostgreSQL, MySQL

Web development: REST APIs, CRUD, HTML, CSS

Tools: Git, GitHub, Docker, Postman, Railway, VS Code

PROJECTS

FleetFlow | Team project

Python, Django, PostgreSQL, Railway

GitHub: <https://github.com/luvanidixit101/odoo-fleetflow>

- Contributed to a fleet management application for trips, driver records, maintenance, and fuel expenses.
- Worked on PostgreSQL-backed features and configured Django host and CSRF settings for Railway deployment.

Smart Attendance Tracker | Hackathon project

Python, Django, HTML, CSS

GitHub: https://github.com/luvanidixit101/GVP_AI_Hackathon_2026

- Built student, attendance, and marks workflows with attendance percentage calculations.
- Flagged students below the 75% attendance threshold for review.

ToolShare | Ongoing project

Spring Boot, React, TypeScript, PostgreSQL, Docker

GitHub: <https://github.com/luvanidixit101/toolshare-microservices>

- Building a peer-to-peer rental platform with tool listings, location-based discovery, and booking flows.
- Organized authentication, user, tool, and booking services behind an API gateway for local development.

EDUCATION

Master of Computer Applications (MCA) | Second year, pursuing

Bachelor of Computer Applications (BCA) | Completed

TRAINING

Three-Day Spring Boot Workshop | July 2026

Practiced REST APIs, MVC, dependency injection, Spring Data JPA, CRUD, MySQL, Maven, and Postman.
